Shasta-Tehama-Trinity Public Safety Training Consortium and Shasta College

Intermediate Wildland Fire Behavior S-290

This is a classroom-based skills course designed to prepare the prospective fireline supervisor to undertake safe and effective fire management operations. It is the second course in a series that collectively serves to develop fire behavior prediction knowledge and skills. Fire environment differences are discussed as necessary and include local conditions affecting fire behavior.

This class is delivered to the off campus locations listed below via Interactive Television (ITV).
